"And how shall they hear without a preacher?" *Romans 10:14*

How shall the Deaf hear without a Deaf Preacher who can help them understand the meaning of the Word of God in their sign language.

SUBJECT: Ministry Update

Dear Praying Friends & Supporters,

I have been praying for you always. Internet service in Tanzania sometimes is unreliable because Tanzania is somewhat behind the 3G technology, and we are experiencing electricity power rationing. In the meanwhile, I am praying that God will provide me a finance to buy an internet modem with 3G high speed from Airtel Tanzania or Zantel Network. Airtel and Zantel are just like a Verizon and At&t.

Ministry update, I am currently taking the time to settle down into the ministry and conducting a church service in a small open air building. I have been visiting around the corner of the city searching for deaf people. And I have found some of them and are happy to see me came back home. Please pray that I will win their souls to Christ by the power of the Holy Ghost.

Pray also that God will strengthen me as there is a problem with transport, because city buses (commuter) are much inconvenience, they sometimes don't follow designed trip route, so I have to walk in one to two miles to find the right bus and sometimes I have to wait longer for the bus. Hence I am having a delay in carrying out ministry activities due to unreliable transport with city buses. But this situation cannot stop my faith from reaching the deaf souls for Christ!

I look forward to writing the next update. Please share your prayers request with us.

God bless you.

Frank Laurent
